"TRUE UNIFORMITY."

Mine Operators Finally Reach an Agreement.

NOTHING TO DO WITH THE STRIKE.

They Merely Agree to Pay the Same Relative Price For Mining, and Have Affected an Organization Among Themselves, the Miners Being Shut Out From Future Conferences—Strike Situation.

PITTSBURG, July 29.—The "true uniformity" conference of coal operators of the Pittsburgh district concluded its work last night at 9:15 o'clock, after a two-day's session of close and persistent work. The 21 sections of the uniformity agreement were thoroughly discussed and adopted section by section. The best feeling prevailed throughout the meetings, the only exception being the bolting of Colonel Rend at Tuesday's session. Just previous to adjournment, however, Judge Owens announced that Colonel Rend had authorized him to state that any agreement the conference adopted would receive his hearty co-operation and he would sign it if 95, 50 or even 20 per cent of the operators were sincere in their sanction of it.

The conference appointed a committee of five—W. P. Dearmit, J. B. Zerbe, J. J. Stoyler, J. C. Dyar and N. F. Sanford, with General John Little to secure the signature of the operators to the agreement. This committee will begin its work at once. It will be aided by the Ohio board of arbitration. When the requisite number of signatures have been secured, another meeting will be held to ratify the agreement.

Speeches were made by Dearmit, Dempster, Little, Zerbe and others, all expressing satisfaction over the result of the meeting and predicting the success of the plan.

The agreement, as adopted provides for cash payment of wages, 2,000 pounds to the ton, check weighman on the tipples, miners to be credited with the full quantity of coal contained in the mine car, abolition of company stores, semi-monthly paydays uniform price for pick mining in the thin and thick vein districts and screens not exceeding one and one-half inches. It also provides that in case of the violation of the provisions and terms of the agreement a penalty of 10 cents per ton on the total output of coal mined by the violator will be charged, which penalty is to be paid to a commission subject to the right of further arbitration or appeal. Said penalty, when collected, is to be distributed among the signers of the agreement pro rata, in proportion to the total amount of tonnage or output made by them during the year.

The commission is to be chosen annually and shall be known by the name of the uniformity commission. It shall be composed of nine members, the thick and thin vein operators having proper representation. The members shall be sworn to faithfully and impartially perform the duties of their office and will be authorized and empowered to enforce the judgments and awards.

It shall also be empowered to subpoena witnesses with the same force and effect as a board of arbitrators duly appointed under the act of assembly of the state of Pennsylvania relating to compulsory arbitration.

The agreement shall not become effective unless it has been signed by 95 per cent of the operators on or before Jan. 1, 1898.

After 90 per cent having signed the agreement, if any 15 operators shall be of the opinion that enough have signed to render it effective, a meeting shall be called in Pittsburgh to declare it in force.

The operators, with a few exceptions, want it distinctly understood that the passage of this agreement has nothing to do with the great strike. They wish the miners to disabuse their minds of any such theories.

The operators have also shut out the miners' leaders from taking any part in the conferences that may take place through questions arising between the operators and miners, by inserting a clause in the agreement stating the commission shall be composed of workmen employed by the subscribers. Heretofore the miners' officials have represented the miners, but now the miners are to grapple with the questions in dispute alone.

It was decided that present contracts could not be made the basis for arbitration. Many firms have taken contracts for a stipulated period at a fixed price. It is understood that these shall have the right to supply the product to fill these contracts at the rate of mining on which the contracts are based. Here is where the miners and operators will separate.

FEELING THEIR WAY.

Ratchford, Gompers and Sovereign Call on Governor Atkinson.

CHARLESTON, W. Va., July 29.—President Ratchford of the United Mine Workers, President Gompers of the American Federation of Labor and Grand Master Workman Sovereign of the Knights of Labor arrived here yesterday evening and immediately called upon Governor Atkinson to get an expression from him as to their rights to speak and hold meetings in West Virginia, and especially to complain of the injunction issued by Judge Mason, prohibiting the organizers to appear or hold meetings on the grounds of any coal company without permission or upon any road leading to the company's property.

Governor Atkinson pointed out to his

visitors that three branches of state government, the executive, the legislative and the judicial, are entirely separate and distinct, one from the other; that he had jurisdiction only in the executive branch, and that the matter of issuing the injunction is purely a matter for the courts or the judicial branch. The governor had not seen an official copy of injunction, but if what he got from the newspapers in regard to it was correct, he believed that the injunction was too sweeping in its provisions. However, he would withhold his opinion upon it till he saw an official copy. He asked his visitors to call again, when he would give them his final answer as to what he would or could do toward giving the relief asked for.

Messrs. Gompers, Ratchford and Sovereign said that they would go ahead at once to organize the state, no matter what may be the governor's answer or the issue in the courts. They would proceed with their speeches until arrested and then fight it out in the courts. Each will return to his headquarters, and begin the work of the labor demonstration in the several states Aug. 5.

MINERS DISCOURAGED.

The Wheeling Conference Proved a Disappointment to Many.

PITTSBURG, July 29.—The general strike situation is less encouraging from the miners' standpoint than it was a week ago. Breaks in the ranks of the river men and a general feeling of discouragement over the West Virginia situation have combined to quench enthusiasm in a remarkable degree.

One prime factor in bringing back this condition of affairs is thought to be the inaction of the Wheeling convention in devising ways to stop coal shipments from the disputed territory. On all sides the conference was looked upon by the men as presenting a speedy solution of the West Virginia problem and a means of making the tie-up general. The issuance of long resolutions instead was in the nature of a boomerang.

SIX INDIANS KILLED.

An Express Train Wrecked on the Central Pacific Railroad.

RENO, Nev., July 29.—One of the worst wrecks in the history of the Central Pacific railroad occurred yesterday on Twenty-five Mile hill, six miles west of Reno. The engine was overturned and thrown to one side of the track and the tender on the other and the road was littered with the debris of baggage, express and mail cars reduced to kindling wood. Of 15 Indians who were riding on the blind baggage, six were killed and nearly all the remainder were more or less injured.

Fireman Rawlins was thrown from the engine on his head and sustained considerable injury.

Engineer Irwin was also thrown from his engine but is unhurt, except a slight sprain of his back.

The mail clerks, George W. O'Brien and S. A. Rose, escaped with a few cuts about the head and bruised about the body.

Wells-Fargo express messenger, J. J. Burke, was badly shaken up and bruised.

The wreck was caused probably by spreading of the rails. The mail and express car were turned bottom-side-up, the day coach and one sleeper were thrown at right angles to the track, and the dining car and two Pullman coaches were badly wrecked. Only two cars remained on the track.

The wounded were brought to Reno in a caboose. The track was torn up for 300 yards or more.

Death of a Philanthropist.

WASHINGTON, Ind., July 29.—Hugh Barr, the philanthropist, aged 81, died yesterday of general debility. He leaves a large estate. The deceased was well known and highly respected in this section and was identified in financial circles throughout the state. Mr. Barr possessed many sterling qualities and gave liberally to the worthy poor. He donated a large sum of money to aid in the construction of the new Christian church of this city, of which church Mr. Barr was a leading member.

Determined to Die.

KANSAS CITY, July 29.—Dr. S. D. Porter, president of a local physicians supply company and well known, died yesterday afternoon after having taken separate doses of morphine, strychnine and hydrate of chloral and then turned on the gas. He was found in a dying condition in the rear of his place of business. The motive for the suicide is not plain. Porter was well-to-do and apparently lived happily. His wife was a Miss Blandy of Zanesville, O.

The Flesh Stripped Off.

KOKOMO, Ind., July 29.—Delmar Danan, eighteen years old, of Ervin township, while assisting in thrashing wheat yesterday afternoon, was kicked by a horse, which threw him against the gearing of the straw-stacker. His hand caught and his arm was drawn in to the shoulder stripping the flesh from the bones. There is little likelihood of recovery.

Stabbing Affray at a Dance.

VINCENNES, Ind., July 29.—At a dance in the lower part of the county last night, Tom Martin and Seth Waggoner engaged in an encounter in which Waggoner was stabbed several times in the abdomen with a knife, and otherwise badly cut about the face and neck. He is fatally injured. Martin is under arrest and in jail.

Mighty Mice.

The Hindoos have a proverb to the effect that women fear mice, mice fear men, and men fear women.

TRAMP TERRORIZED.

Over a Hundred Hobos on Two Freight Trains.

ONE OF THE NUMBER HELD UP.

Two Dollars in Money, His Coat and Hat Taken From Him—A Young Lady Badly Injured by a Man and His Wife. Mysterious Shooting—Printer Injured. Other Ohio State News.

RAVENNA, O., July 29.—The spectacle of a tramp holding up a tramp was witnessed in this city last night. Two tramps in the Pittsburg and Western depot in some way crossed a crowd of tramps who were waiting for a freight to move. One of the two left his partner in the depot. Before he returned a telephone message called for officers. The one who had remained in the depot had been held up in the absence of his partner. The crowd had relieved him of \$2 in money, and taken the coat from his back and the hat from his head.

Another tramp, a cripple, a short time before reported that a crowd had knocked him down with the butt end of a revolver and gone through his pockets.

Officers Goodenough, Pierce and Judson searched two trains. They found over 100 tramps on the trains, as it was impossible to identify the highwaymen in the dark no arrests were made. No names were taken by the officers.

INJURIES SERIOUS.

A Young Lady Badly Done Up by a Man and His Wife.

SINKING SPRINGS, O., July 29.—Miss Barbara Holt, the young woman who about two weeks ago was knocked down and had her nose broken by a stone thrown at her by Ralph Smalley and afterward attacked and brutally beaten with a club by Smalley's wife, is in a dangerous condition.

The couple were arrested on the charge of assault with intent to kill but afterward released on bond and are now at the home of a relative. Serious trouble is anticipated should the injuries prove fatal. Attorney Ray Tener of this place is prosecuting the case and it is alleged the Smalleys will be re-arrested and taken to jail.

Tramp Printer Injured.

DEFIANCE, O., July 29.—Herman Spenn, a printer, of St. Catherine's, Canada, had his right foot crushed and his left leg broken while attempting to jump from a Baltimore and Ohio passenger train here. He was stealing a ride. He was thrown in such a manner that the wheels passed over one foot and it may have to be amputated. Spenn is a member of the Knights of Pythias, and is now in the care of the brothers. He is a married man and has a wife and one child in Canada.

Body Recovered.

BAINBRIDGE, O., July 29.—The body of David, the 9-year-old son of Rev. Lewis of Chillicothe, who was drowned in Paint creek Thursday, was recovered yesterday. He fell in at Rapid Forge while amusing himself by throwing a rope over a log. He was found about three miles from where he was drowned, on a ledge of rocks at the falls. The body was badly decomposed and was taken to Chillicothe for burial by Undertaker Ware, after an inquest by Squire Newell of this city.

Mysterious Shooting.

STURDEVILLE, O., July 29.—Considerable mystery surrounds the shooting of Miss Mollie Horner, a domestic at her home on Sixth street at an early hour yesterday morning. Miss Horner had gone out in the yard, and while there either shot herself or was shot by persons in the yard to attempt robbery. Her dress was scorched so close was the revolver held to her body. Miss Horner will not tell of seeing any person in the yard.

Attorney Attempts Suicide.

CIRCLEVILLE, O., July 29.—During a temporary fit of melancholy caused by jealousy, Attorney T. J. Abernethy attempted suicide by taking a big dose of morphine. He still lingers. It is said the act was caused by jealousy over a young woman.

Became Exhausted.

AKRON, O., July 29.—Orbin Suikhorn, aged 21, a well known Munroe Falls boy, was drowned while bathing in the Cuyahoga river there yesterday. He had been long in the water and was exhausted.

Runaway Accident.

RAVENNA, O., July 29.—During a runaway Bert Hoover and Peter Cope were thrown from their carriage. Hoover hit a tree and was knocked unconscious. He sustained dangerous injuries.

Injured by a Vicious Horse.

BALTIMORE, O., July 29.—A vicious horse jumped upon and trampled nearly to death Jesse Snider, a son of Rev. A. Snider, while he was in the animal's stall currying him.

Caught in the Shafting.

BELLEFONTAINE, O., July 29.—Wilbur Bayer was caught in the shafting at the Gretna creamery and frightfully injured.

VEEDERSBURG, Ind., July 29.—Yesterday, at Attica, William Sharp's livery stable was burned, with four horses. Loss, \$1,500.

LIFE SAVED BY GENERAL LEE.

Young Fernandez Will Not Be Executed by Spanish Soldiers.

NEW YORK, July 29.—A dispatch to The Herald from Key West says: Manuel Fernandez, the young American who was tried by courtmartial in the jail in Havana, charged with bearing arms against the Spanish government and adjudged guilty, has been sentenced by the tribunal to imprisonment for life at hard labor. At the close of the trial the government prosecutor asked that sentence of death be imposed, but the court recommended life imprisonment.

The sentence has been referred to Madrid for approval. It is believed that the mitigation of the sentence of young Fernandez is due entirely to the great interest taken by Consul General Lee in the case and the strong plea made personally by him to Captain General Weyler.

Fernandez, whose father is a Spaniard, but a naturalized American citizen and a resident of this city, was scarcely 18 years old when he joined a filibustering expedition and went to Cuba two years ago. A few days after landing the expedition was overtaken by a company of Spanish troops under Colonel Ochoa, and Fernandez, with several companions, became separated from the main body of the filibusters and was captured near Juraco, taken to Havana and has since been confined in Cabanas fortress.

One of his companions captured at the same time was Charles Govin, who was summarily put to death on his statement that he was a newspaper correspondent and an American citizen. Govin's tragic death was witnessed by Fernandez, and it is reported that the most compromising evidence against Spanish officials now on file in the state department was furnished by him.

Tobacco in the Logs.

HAVANA, July 29.—An examination by customs officials of eight of the consignments of 155 logs which reached here on Sunday last on the steamer Segurana, and which were deposited in the custody of the police at the Tallapiedra wharf, show them to have been packed with fine Sumatra leaf tobacco. If the remainder of the logs contain an amount of tobacco proportionate to that found in those already examined it is estimated that the total shipment of tobacco will reach 4,000 kilos. The logs, it is said, were shipped by a Maine lumber company.

TACKLING THE TRIBESMEN.

British Troops Evidently Have Serious Work Ahead of Them.

LONDON, July 29.—A dispatch from Simla says that the government is taking all steps necessary to cope with the emergency in the Chitral. Although Fort Chakdara, now cut off, occupied an isolated position, it is believed that with two companies of the Thirty-first Punjab infantry and two guns the garrison can hold its own. The road between Mardan and Malakan is blocked with hostile tribesmen who have cut telegraph wires.

Three squadrons of Bengal lancers and the Second Punjab infantry regiment have started for Mardan. The Seventh Mountain battery is on the way to Malakand and the West Kent regiment is held in readiness at Peshawar. The Simla dispatch also says that Captain Holland of the Twenty-fourth Punjab infantry was among those seriously wounded during Monday night's attack on Camp Malakand.

A dispatch from Bombay says that Gangadhar Tilak, a native member of the legislative council, was arrested last evening on the charge of inciting the natives to disaffection. He was formally arraigned in the Bombay police court, after which the hearing was adjourned. Gangadhar Tilak has for a long time agitated indiscriminately against British rule. Of late he has been more than usually virulent. He is a thorough fanatic, opposed to European ideas and innovations, and he has been a leader in the recent outbreaks against the sanitary regulations. Withal he is a man of talent.

Coming Back to Ohio.

PARIS, July 29.—George Henry Williamson, the wealthy American who died here, after a residence of half a century in France, came from Cincinnati. By his will he left his entire fortune to his two daughters by a French woman, named Marie Grandchamps. The French courts having dismissed the claims of the French claimants, the mother of the two girls, who says Williamson was a citizen of Ohio, proposes to return to that state as soon as her health will permit. She says her two daughters are legitimate.

Warning to Excessive Smokers.

ELGIN, Ills., July 29.—The asylum authorities report a case here of a patient who is turning black. He is an epileptic confined in the infirmary, and was formerly a florist engaged in business at Spring and Franklin streets, Elgin. His name is Henry Schlaack, and the immediate cause of his epilepsy is supposed to have been the excessive smoking of strong tobacco.

BLOOMINGTON, Ind., July 29.—Leon Siebenthal, a 15-year-old boy, was drowned in Stephenson's pond, three miles east of this city while bathing. He was a brother of Professor C. E. Siebenthal of the State University.

Sultan Giving In.

LONDON, July 29.—A special dispatch from Athens says that the sultan has instructed Tewfik Pasha, commander-in-chief of the Turkish forces in Thessaly, to sign the peace preliminaries on Saturday next.

WILL IGNORE JAPAN.

Nothing More to Be Said on the Subject of Annexation.

BUT TWO COUNTRIES INTERESTED

This Government Considers That the Approval of No Other Government Is Necessary to the Completion of Annexation. Japan's Attitude Is of a Serious Nature. Trying to Interest Foreign Powers.

WASHINGTON, July 29.—It is probable that there will be no further extended correspondence between the state department and the Japanese minister on the strength of Hawaiian annexation. It is thought that the correspondence has been carried as far as it can legitimately be from the point of view of this government.

The position taken by the United States is that the annexation of Hawaii is a matter which concerns only the two countries which are parties to the treaty and that the contest or approval of no other government is necessary to the completion of the transaction. This being the case, it is felt for the state department to enter further into an agreement with the Japanese minister as to the merits of the case would be compromising, in a measure at least, to the position of this government. It is probable therefore that the only response that will be made to Japan's latest protest will be a polite and diplomatic announcement that the United States does not regard the annexation of Hawaii as a matter open to discussion with any foreign government.

The attitude of this government has been made clear in the history of our relations with Hawaii, in the course of the administration in negotiating the annexation treaty without notice or consultation with any foreign government and by the correspondence which has so far taken place between the state department and the Japanese minister. There is nothing more to be said on the subject and there are abundant reasons why the administration should decline to regard the matter as one open to discussion.

The first protest might be regarded as a formal matter designed by the Japanese government to furnish a pretext upon which Japan might build up a claim for special consideration for her subjects by treaty with this government after annexation has been accomplished. The second protest, however, couched in language strong enough not to be subject to misinterpretation by anyone familiar with diplomatic usage, puts the matter in more serious aspect. It is an unconditional protest against annexation and conveys the information that Japan will not recognize annexation. However lightly state department officials may dismiss the matter in public utterances, it is well understood that the terms of the second protest, and the fact that Japan thought it necessary to make the second protest, warrants credit being given to the statement made in London and Paris that Japan is trying to induce foreign powers to join her in resisting annexation.

When the annexation treaty was first announced it was said at the Japanese legation here that the great powers of the world would not permit of annexation to be completed until conditions attending it were made entirely satisfactory to all those governments having any interests in Hawaii. It was admitted also that Japan would like to possess Hawaii, but that knowing that the United States would not permit that, it was the desire of Japan that the independence of the islands should be preserved.

RECESS APPOINTMENT.

Consul at Cork and Other Offices Filled by the President.

WASHINGTON, July 29.—The president has made the following appointments:

Daniel Swiney of Ohio, consul at Cork, Ireland.

Thomas Fitch of New York, commissioner of immigration, port of New York, N. Y.

Warner Sherwood and George W. Wanamaker of New York assistant appraisers of merchandise, New York.

Frank J. Naramore, collector of customs, Fairlie, Conn.

Charles H. Maris, collector of customs, Braxos de Santiago, Tex.

Andrew W. Francisco, collector of customs, Los Angeles, Cal.

Charles E. Sapp, collector of internal revenue for the Fifth district of Kentucky.

Samuel J. Roberts, collector of internal revenue for the Seventh district of Kentucky.

NEW YORK, July 29.—General Stewart L. Woodford, United States minister to Spain, sailed yesterday for the scene of his future duties. General Woodford was accompanied by his wife and daughter and by the members of the legation. These latter were John R. MacArthur, assistant secretary; Captain Tasker H. Bliss, U. S. A., military attaché, and Lieutenant George S. Dyer, U. S. A., naval attaché. There also sailed with General Woodford, his nephew, Stewart Woodford Capen, his niece Miss Mary Claflin Eames and Miss Isabella Hanson.

Passenger Train Wrecked.

ST. LOUIS, July 29.—Train No. 2, of the Louisville, Evansville and St. Louis railway, was wrecked at 9:15 o'clock last night, at Grassland, Ills. A trestle had been undermined by rain. It went down under the engine and the locomotive and two cars followed it. The engineer and fireman escaped uninjured.

MR. GEORGE W. OLDFAM of the Sunday Morning Call is formally announced as a candidate for City Assessor. That he is well qualified for the position will be admitted on every hand, and he would make a faithful and efficient official if honored with the position.

SENATOR SHERMAN speaks rather contemptuously of Mr. McKinley's currency message. When he was asked if he had read McKinley's currency message, he said: "I did, and I must say that I am not surprised that it failed to secure action. I was quite positive that, after the tariff bill was signed, Congress would adjourn without touching either the currency question or the annexation treaty with Hawaii."

DEARING AND DAUM.

Compose the Ticket Put Up by
the Republican District
Convention.

The Former For Circuit Judge and Latter
For Commonwealth's Attorney—Mr.
Dearing's So Thankful.

The Republican Judicial district convention Wednesday was well attended. The convention was called to order promptly at 2 o'clock by Chairman Clarence Mathews, of the district executive committee, who in a few pointed remarks announced the object of the meeting.

On motion of Mr. Sam T. Hickman, Editor Thomas A. Davis was unanimously chosen temporary Secretary.

Mr. Mathews stated the election of a temporary Chairman was next in order, and Mr. W. B. Fugh, of Vanceburg, proceeded to get off a lengthy speech in which he assured the convention that Lewis County "would throw no obstacle" in the way of the ticket that might be nominated. He closed by nominating Captain H. C. Weaver, of Brooksville, for temporary Chairman. Mr. Weaver was unanimously elected, and was escorted to the chair.

The Republican editors present were made assistant Secretaries.

Chairman Weaver, who had evidently overlooked the fact that a permanent organization had not been effected, stated that nominations were in order for Circuit Judge.

Mr. Fugh suggested that no Committee on Credentials had yet been named, and moved that the appointment of such committee be dispensed with. Adopted.

On motion of Mr. Sam T. Hickman, the temporary organization was made permanent, and things were further straightened out by the appointment of a Committee on Resolutions, consisting of one from each county, as follows: Hon. John P. McCartney, of Fleming; Squire Thomas Forman, of Mason, Mr. H. C. Yates, of Bracken, Hon. S. G. Hillis, of Lewis, and Mr. Frank Bennett, of Greenup.

The committee retired, and then, in response to calls, Lieutenant Governor Worthington addressed the convention. He soon got the convention in good humor by singing the praises of the g. o. p. It was an old song, and the Colonel sings it well. He didn't forget, however, to throw out some slurs for the "silverites,"—"blatherskites they some times call them," added the Colonel, which "brought down the house," of course. Col. Worthington next proceeded to flatter the Gold Democrats in glowing terms, picturing them as the "only real thing," and closed by presenting the name of one of them, W. G. Dearing, of Fleming,—for Circuit Judge.

There were no other nominations, and Mr. Dearing received the nomination by acclamation.

On motion of Judge Wadsworth, County Attorney Ed. Daum, of Bracken, was unanimously nominated for Commonwealth's Attorney.

The Committee on Resolutions presented its report, which was adopted. The resolutions simply indorsed the last National platform.

Mr. Fugh, Lieutenant Governor Worthington and Judge Wadsworth were then appointed a committee to escort the nominees before the convention.

Mr. Dearing and Mr. Daum accepted their honors, with hearts full of gratitude. Mr. Dearing even went so far as to say "no General ever felt prouder of his victory" than he did of this nomination at the hands of his erstwhile enemies. He was so rejoiced to know his flop last fall had not ended his political days that he was almost too full for utterance, and he was so thankful to the Republicans for reaching out and snatching him from that political oblivion into which he evidently thought he had dropped. He didn't say so in so many words, but that was the gist of his remarks. Mr. Dearing told how last fall, when the change came over his political dreams, he offered to resign the office the Democrats of Fleming had given him, but they actually refused to allow him to resign, as they thought his very valuable services would be sorely needed by the county in some then approaching litigation. And then he had gone forth to battle for Major McKinley, and the battle was so intense and the feeling against him so bitter that it had almost "destroyed the health of his family." He told that along towards the close of the campaign everytime the doorbell rang at his home his family had expected a message from him, but like the letter "it never came." He conveyed the impression that his family had lived in awful suspense, fearing he would at most any moment fall into the hands of the "anarchists" he and the other goldbugs talked so much about. He closed by saying he had been baptised in "water, fire and blood," and was now so closely attached to the Republicans that

they couldn't get away from him. Mr. D. evidently realizes that his political salvation is now in the hands of the Republicans and that if they don't save him he will be eternally lost. Yea, verily.

In response to calls, Hon. John P. McCartney now finished the speech he was making when the candidates interrupted him, and the convention then adjourned, without day.

A CORRESPONDENT of the Danville Advocate says: "Every year I hear of caterpillars destroying whole orchards and there is nothing to dispose of more easily. I bore a hole deep enough to reach the sap, fill it with sulphur, and then plug it up. The result is magical. The sap takes up the sulphur to every branch and twig, and caterpillar at once dies. I have never known of a tree injured by it, and I have pursued the course for years."

PERSONS using the L. and N. railroad in attending the Bracken Association to be held with the Lewisburg Baptist Church August 4th, 6th, 1897, will be granted a two-third rate on the following plan: (1) Purchase a full rate ticket over the L. and N. to Marshall, taking the certificate of the agent at the starting point stating that you have paid full fare. (2) Have it signed during the session of the association by the clerk and when presented to the agent at Marshall on your return you will be granted one-third fare.

THE Lexington Herald has a wide field, which it is taking advantage of and pushing its circulation throughout all the Blue Grass. It is the only daily morning paper published in Central Kentucky, and by the fact of Lexington's being a railroad center, with trains going in every direction early in the morning, it can cover a large area before any of its rivals can reach its territory. It is crisp, bright, new. Suspicion points to Col. W. C. P. Breckinridge as the writer of many of its editorials which have made the Herald so much talked about, though his name does not appear as one of its editors, and the rule of the management is not to let the writers of the editorials be known.

Friday's Cash Sale!

Money's Saved When Spent at Hunt's.

CARPET manufacturers' samples of strictly all Wool Ingrain, some pieces one yard, others one and one-quarter yards in length. These samples can be nicely put together and used for bed-room floors, giving you a carpet for 25c. a yard that would cost in a regular way 50c., 55c. or 60c. For the price of a common rag carpet you can buy the best quality Ingrain, unfading and long-wearing. The different patterns, with one color predominating, when sewed together, produce a very unique but also artistic effect. These Mosaic Carpets have been used some time in the larger cities and have given universal satisfaction. A made-up carpet will be on exhibition at the store Friday, twenty-five yards of best quality, all wool, 60c. Lowell Ingrain, \$6.25. But whether you want twenty-five yards or one the price is no more, 25c. This is a bargain worth investigating. Don't miss it.

SEWING SILK.—Richardson's, Belding's and Corticelli's best quality, 100 yard spools, black, white and colors, 5c. a spool, always sold at 10c. A once-in-a-life-time chance. Don't pass it by. Autumn dress-making isn't far distant, and sewing silk is an every-day need.

CHAINLESS

The Bicycle of the Future Will Be—Description of the New Wheel.

[Times-Star.]

Will the chainless bicycle be the wheel of the future? asks the Sporting Life, and then answers its own inquiry by averring that for many months the question has engaged the attention of the manufacturer and interested the rider.

The very fact that half a dozen manufacturers have been for some time experimenting with chainless bicycles would seem to augur that the day of that style of machine is not far distant. The statement has been made that at least ten of the largest bicycle manufacturers in the United States will place chainless wheels on the market next year, and that one company, whose headquarters are in New York City, has arranged for the manufacture of at least 10,000 wheels of this type, to be ready for early shipment in 1898. The same gentleman is authority for the statement that the standard price of chainless wheels will be \$100.

The point in which the new machine will differ from the style now in vogue will be in the substitution of what is known as the bevel gear for the chain gear. This gear is entirely inclosed in the lower framework of the bicycle, being operated by a revolving shaft through what is technically known as the right back fork leg. The advantages claimed for this device are that there is no lost motion in the transmission of power to the driving wheel, and fully one-third less friction. Consequently the same amount of leg power would drive the chainless wheel faster than the chain wheel, the gears being equal.

It is confidently believed by advocates of the chainless bicycle that when racing wheels fitted with bevel gears are used on the track, there will be another wholesale smashing of records, such as followed the introduction of the pneumatic tire. Racing men will be enabled to use higher gears, their momentum will carry them a much longer way than at present, once they get into their stride.

The strength and durability of the new type of bicycle are attested by the fact that a sample wheel manufactured last year by a New York firm has been ridden more than 8,000 miles, over all kinds of roads, and after this continuous test has been examined by expert mechanics and found to show no perceptible wear. Similar satisfactory tests are reported to have been made by other manufacturing firms.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida street, San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at J. James Wood's Drug store. Too Much Rain in Some Sections—Weekly Bulletin of the Weather Bureau on the Outlook.

[For Week Ending July 26.]

Too much rain is the cause for complaint among farmers in certain parts of the State, as the result of the general conditions of the past week. This complaint comes chiefly from correspondents in the Central and Eastern sections. The average amount of rainfall for the State for the week was 1.44 inches, which is largely in excess of the normal. At the following points the actual amount reported exceeded two inches: Bardstown, Bowling Green, Earlinton, Enbanks, Maysville and Shelbyville. In certain localities excessive rains have interfered with farm work, delayed threshing and haying, and caused weed growth that is very embarrassing to the farmer.

Showers occurred generally over the State on the 19th and 20th, and again on the 24th and 25th. During the intervening days warm, sunshiny weather prevailed. Friday was the only day with excessive heat, the temperature on the other days being practically equal to the normal. Sunshine is now needed in nearly all parts of the State, and warm weather would not be detrimental; but if a period of drouth should now set in it would seriously damage the corn and tobacco crops in many parts of the State. In last week's bulletin it was stated that in the counties west of Crittenden and Trigg excessive moisture was the source of complaint, while drouth existed in the district bounded on the north by Meade, Breckinridge and Hancock counties and on the south by Franklin, Allen and Barren. In this latter section showers have occurred very generally, Hancock and adjoining counties being the only locality where drouth was not amply relieved. Rain has also fallen in those extreme northern counties that had been dry for nearly six weeks previous. Generally speaking, precipitation has been well distributed throughout the State in the past seven days.

Western Section.—All reports concerning the wheat crop are favorable both as to quality and yield. Except where too frequent rains have interfered wheat threshing is about completed. The threshing of oats is well under way. The straw is very short, but the head is well filled. Corn has revived "wonderfully" in the drouthy district since the recent rains. Generally speaking, however, the crop is uneven, and will not average more than three-fourths the usual yield. More rain is needed on the hill top. In certain low lands where rain has been heavy and the temperature seasonable, or warmer, "both corn and tobacco have become foul, and a spell of dry weather would seriously damage them," says a correspondent in Marshall County. Out of about 150 reports it is an exceptional thing to find one that says "tobacco is good," or words of similar import. "Tobacco is no good" is a more frequent remark. In Hancock County "it is running to bloom and

spreading, a condition from which it seldom recovers." Worms have become numerous, though owing to the plants being unusually small they are easily caught. The extent of damage by worms is not so great as that due to unusual climatic conditions. The general growth is irregular and indifferent. No topping has been done yet. Hay is nearly all cut. Pastures are splendid. Irish potatoes are very poor.

Central Section.—Rains have been heavy throughout this section generally. In certain counties serious damage is resulting from frequent and soaking rains. There are also localities in scattered parts where only showers have occurred for several weeks, and a soaking rain would improve crops generally. Where rain has been exceptionally heavy there is complaint of wheat sprouting in the shock. Threshing is progressing as rapidly as the weather will permit. Oats are being cut with generally satisfactory results. Corn is growing nicely and is an excellent crop, as a rule. It is somewhat uneven in growth. Though four weeks behind in planting, it is now near its seasonal stage in some districts. Plowing is about all done. The chinch bug is disappearing. From the southern counties come reports that tobacco is frencing, and worms are numerous and hard to combat. The general crop is uneven and poor. The plants are very small. There is a good crop of timothy hay, which is being harvested. The second crop of clover is excellent. Hemp is looking well. Sorghum is a small crop. Pastures are fine. Irish potatoes are a poor crop. Blackberries are more plentiful than for years past.

Eastern Section.—In this section also rainfall has been excessive generally. In northern counties crops have revived, and for the first time in a month or more the reports are encouraging in tone. In some counties where local rains have been exceptionally heavy corn looks well, but the weeds are thick and farmers are unable to control them. Reports concerning the corn crop are favorable as a rule. Tobacco is improved and is generally better in this than in the other sections, though still not up to the average crop. Wheat threshing is progressing rapidly as the weather permits. It is a good crop. The same may be said of oats, though the straw is short. Pastures are in fine condition. Berries are abundant. Gardens have been backward, and are now greatly improved. Irish potatoes are only fair. Cabbage worms are very destructive. There is a small supply of seasonable fruits.

FATALLY BURNED

Was Samuel Piles, the Two-Year-Old Son of Mr. and Mrs. William Piles, Tuesday.

Samuel Piles, aged two years and one month, the bright little son of Mr. and Mrs. William Piles, was fatally burned Tuesday at the home of the family on the Lexington pike, just south of the North Fork bridge.

The little fellow was playing in the yard where the servant had been doing some washing when the clothing caught fire. Before assistance could reach him he was terribly burned. He lingered until 7 o'clock Wednesday morning.

Brief services were conducted at the home this morning at 11 o'clock by Rev. F. M. Tinder, after which the remains were taken to Elizaville where Rev. Dr. Scudder conducts the funeral at 3 o'clock this afternoon. Burial at Elizaville.

A Great Book Free!

When Dr. R. V. Pierce, of Buffalo, N. Y., published the first edition of his great work, "The People's Common Sense Medical Adviser," he announced that after 600,000 copies had been sold at the regular price, \$1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at above address, twenty-one (21) one-cent stamps to cover cost of mailing only, and the book will be sent postpaid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The free edition is precisely the same as that sold at \$1.50 except only that the book is in strong manilla paper covers instead of cloth. Send now before all are given away.

BENZINE BLAZE.

One Man Burned to Death and Three Others Badly Scorched.

MICHIGAN CITY, Ind., July 29.—One man, William Bauman, was burned to a crisp, and three others were scorched and overcome by smoke and the fumes of ignited benzine in a fire that started after 11 o'clock yesterday morning in the huge frame warehouse of the Michigan City Sash and Door company. Besides the human life and injuries the fire licked up practically a whole square of buildings, including the factory, where it started, and four dwelling houses and their contents. Three other dwellings were partly destroyed. The total loss will reach \$70,000, with about \$50,000 insurance.

Louis Schwartz, Fred Peters and Herman Luckow were the three men seriously injured, but all of them will probably recover.

The four houses completely destroyed were occupied by Mrs. Steiger, Mr. Anger, Mr. Brown and Mr. Sheldon.

The local volunteer fire department was wholly unable to cope with the blaze.

Fire From a Peculiar Cause.

OLEAN, N. Y., July 29.—The stroke of a hammer upon a nail caused a \$40,000 fire yesterday and 11 men narrowly escaped being burned to death. The men were new roofing a 35,000-barrel oil tank, which was filled with crude oil, when it was discovered that the oil had ignited from a spark caused as above stated.

Accusor Not Lowered.

MEDFORD, Mass., July 29.—Neither Robert J. (2:01 1-2) nor John R. Gentry (2:00 1-2), the famous pacers, was able to lower his record at Combination park yesterday afternoon. The best that Gentry could do was 2:07 flat, while Robert J. was slower, 2:08 1-2.

Same Age as Queen Victoria.

BRAZIL, Ind., July 29.—Mrs. Tolson, a highly esteemed old woman, died last night, at her home in Knightsville. She was born the same night that Queen Victoria was ushered into the world, and on property adjoining that of the queen.

MCKINLEY'S VACATION.

The President Departs For Lake Champlain on His Six Weeks Trip.

WASHINGTON, July 29.—President McKinley left Washington yesterday for a vacation that will take him away from the city for six weeks. He was accompanied by Mrs. McKinley, Secretary and Mrs. Alger, Mr. Porter, Assistant Private Secretary Pruden and Executive Clerk Cortelyou. The White House steward and a maid servant also were along. Mrs. Porter and her children will join the party at Jersey City.

About 20 minutes to 12 o'clock the president took his departure from the White House, occupying his private carriage with Mrs. McKinley and the maid. As he left the house he bowed to the persons who stood on the portico to bid him goodbye. The other members of the party had preceded the president to the railroad station. They go from here direct to Lake Champlain.

Making Locomotives For Japan.

PHILADELPHIA, July 29.—The Baldwin locomotive works yesterday booked an order for 20 locomotives for Japan. This, with orders already received, makes a total of 60 for the Oriental empire. Thirty have just been shipped. Of these 18 are for the government and 12 for a private railroad corporation. The order just received is for the Japanese government.

Could Not Have Been Andrew's Balloon.

CHRISTIANA, July 29.—Dr. Nausen, referring to the letter from Captain Lehman of the Dutch steamer Dordrecht, who says that on June 17 he saw a curious object resembling a balloon floating in the White sea, declares that it would be impossible for Andrew's balloon to have reached the White sea so soon after the ascent.

Lived Ninety-One Years.

Promotion For Li Hung Chang.

LONDON, July 29.—The Times' Pekin correspondent says that Li Hung Tsao, grand councillor and member of the Tsungli Yamen, is dead. He was a believer in a strong anti-foreign policy and was the chief opponent of Li Hung Chang, who will probably be promoted.

One Solace.

Mrs. Greene—It must be awfully annoying to have the Biekerses borrow your good butter and return the cheap stuff they always buy.

Mrs. Gray—It would be if it were not for the fact that they always return such a little piece.—Boston Transcript.

A Pistol Using Fool.

LOUISVILLE, July 29.—Frank Costello, aged 13, was mortally wounded at Dawson Springs by John Scott, a young man, who did not know his pistol was loaded. Scott surrendered to the authorities.

Killed Each Other.

MIDDLESBORO, Ky., July 29.—In a drunken brawl in Letcher county last night Dick Williams was killed by John Soward and Soward was himself mortally wounded.
